BUDGET REVISION/CONTRACT AMENDMENT INSTRUCTIONS

What is the difference between a budget revision and a contract amendment?

Budget Revision = “Moving funds from one line to another that equal the same amount. **No change** to the bottom line.” (Example attached)

Budget Revision

The budget revision process is used only for changes to an activity’s budget which do not deviate from the original intent of the contract, or change the total allotment of SmartStart funds. This most commonly occurs when it becomes necessary to move funds from one line item to another due to unforeseen programmatic or cost shifts.

To avoid numerous revisions: Expenditures per line and between categories, may vary up to 20%, as long as, the bottom line does not change.

Budget Amendment = “When it *affects* the bottom line by adding funds to the budget (Increases bottom line) or taking away funds (Decreases bottom line)”. (Examples attached)

Budget amendments are required whenever a change occurs in the approved program activity or when there is a change in the total amount of money (either more or less).

Who Gets the Completed Forms? Budget amendment/revision requests should be sent to Gary Carr, Controller, along with Change Budget and narrative.
